Although this year Speedway High School to many people is a fabulous new building, a huge stadium,

spacious parking lots,

and endless halls, to the students, the insiders who really know Speedway at its best and its worst, it is much more.

Supplement

Prom time heralds the flurry of year-end activities. Join these couples and *look us over* in the closing weeks of an unforgettable year.

Athletic Dance highlighted spring social activities

Alice Sanders and Bill Shields were crowned as the first Athletic Queen and King of the new Speedway High School.

Enjoying the coronation dance, the royal candidates were enchanted with the atmosphere of the rippling waterfall.

Upperclassmen enjoyed prom at I. U. Medical Center

Prom couples took a break to sample the punch and cookies.

Juniors and their guests danced to the music of the Jack Brink orchestra at the Junior-Senior Prom, "Rhapsody in Blue."

Band convo, Choral Festival headed spring music events

The Sparkle-aires, hosts of the County Choral Festival, presented their portion of the program while other high school choir members looked on.

Senior clarinetist, Rich Adams, demonstrated his musical ability at the annual Varsity Band convocation.

Variety of accolades awarded on Honor Day

Marlane Losh presented the Girls' State awards to Susie Young, Lynn Shoenewey, and Beth Montgomery.

Dave Johnson sent future politicians, Gary Laughlin, Mike Harcourt, Jim Roach, and Jim Boswell, off to Boys' State.

The history of the Class of 1964 was vividly relived by class historians Marlane Losh and Brian McClelland.

Five years of straight A's in English led to a three-way tie for the award. Mrs. Hine presented these awards to David Wills, George Walker, and Mary Lyn Miller.

Spring sports teams compiled successful

BASEBALL

FRONT ROW: J. Hunter, manager; M. Alma, D. Glide-well, D. DeWitt, B. Maple, M. Urban, G. Curtis, G. Thomas, M. Short, M. Hackett, A. Whitlow and S. Seabury, managers. **BACK ROW:** W. Clark, Coach; B.

Samm, J. Lippard, J. Boswell, J. Roach, H. Robbins, K. Craig, T. Smith, S. Neat, D. Schnable, J. Allen, M. Pollard, Assistant Coach.

BASEBALL

Sparked by fine coaching from William Clark and his assistant, Morris Pollard, last year's conference-winning Spark Plugs batted their way to a fine season. With many members of the championship team returning to the line-up, the 1964 baseball team won 8 of their 11 games—a record which proved their superior ability.

TRACK

What does it take to win a track meet? Speedway's cindermen are beginning to regain the elusive answer to this pressing question after two dismal seasons. With the start of three-team meets, the harriers improved from an all-loss record to this year's 3 wins-1 loss. Strong efforts and good ability are also becoming more evident in the freshman and reserve members who literally ran to 1 win-1 loss and 1 win-0 loss seasons respectively.

TRACK

FRONT ROW: R. Read, manager; B. Smith, C. Engle, G. Smith, D. Parks, B. Shields, J. Crane, M. Fowler, H. Crawford, D. Johnson, D. Graub, L. Hood, manager. **SECOND ROW:** J. Owensby, Coach; D. Hooper, B. Orth, W. Lind, J. Perin, C. Hubbel, P. Hoose, K.

Jay, E. Woodard, D. Bennett, J. Heidenreich, S. Englert, J. Page. **BACK ROW:** N. Stott, S. Jackson, P. Parks, G. Werling, P. Etchells, C. Williams, P. DeWeese, D. Harriman, R. Horton, D. Kriss, F. Jent, Assistant Coach.

season records for Speedway High School

TENNIS

Under Mr. Crafton's able direction, the newly-formed tennis team had its first season. Although a record of 4 wins and 4 losses was the result, the team members still made a fine showing for their first year. Depth is also evident. The team, with the exception of one graduating senior, will return to the courts again next year and should be very good.

TENNIS

FRONT ROW: B. Neiderhouser, manager, K. Jones, R. Nelson, D. Brooks, J. Alkire, J. Baldauf, manager. **BACK ROW:** D. Hammer, L. Heaney, S. Lewis, T. Nolte, R. Feely, R. Sinks, C. Crafton, Coach.

GOLF

LEFT TO RIGHT: R. Lee, J. Procter, M. Harcourt, G. Haettinger, S. Smith, G. Laughlin. **CENTER:** L. Neat, Coach.

GOLF

Speedway's top-flite golf team knocked their way to a first-place tie with Southport in the sectional meet and to a third-place spot in the county. Led by Coach Neat and first-man Gary Laughlin, the team chipped their way to a 5 win-3 loss season this year.

GIRLS' SWIMMING

New sports abounded at Speedway High School this year. Girls' swimming was initiated this spring. The newly-formed team was under the direction of Mrs. Coehler. The girls participated in one inter-school meet. They scored a resounding victory over Southport at the Southport pool.

GIRLS' SWIMMING

FRONT ROW: S. Gilbert, L. Kutch, B. Love, K. Bielecki, C. Culver, C. Layton, D. McPhee, J. Boyer, M. Coehler, Coach. **BACK ROW:** J. Farley, D. Johnston, P. Miscoi, B. Power, A. Crawford, D. Lippard, B. Curry, R. Veal, E. Pico.

LEFT TO RIGHT: C. Wacker, L. Schoenewey, D. Woodward, V. Wagner, D. Spencer, A. Williams, R. Sinks, S. Sumner, M. Brubaker, K. Ent, M. Harcourt, J. Keating.

Russ Sinks, as Cleante, sang a passionate ballad to his secret love, Angelica (Donna Spencer).

The imaginary invalid, played by Alex Williams, became flustered over his high medical bills.

Toinette (Vicki Wagner) prepared the ideal surroundings to cajole Monsieur Argan into accepting his daughter's suitor.

French comedy produced by the Junior Class

In contrast to the serious senior play, the Junior Class presented a farcical comedy, *The Imaginary Invalid*. This French play, written by Moliere in the 17th century, is a satire on the medical profession of that age. Elaborate costumes rented from a Broadway company accented the good acting of Alex Williams and the supporting cast.

Mike Harcourt, as the conniving lawyer, plotted with Lynn Scheonewey (Madame Argan) to obtain her husband's fortune.

The entire cast appeared on stage for the grand finale of the music department's presentation of *Oklahoma*.

Music Department went professional with OKLAHOMA

Serious drama, boisterous humor, action, suspense, color, and many songs were a few of the factors that made *Oklahoma* a huge success. This romantic tale of the early years of this country tells of hardworking, handsome cowhand Curly who is out to win lovely but hard-to-get Laurey. He finds competition, however, in Jud Fry.

The musical comedy was under the direction of Robert Wise, Don Johnson, and Dalton Wicker. This musical was one of the most professional the music department has ever produced.

Curly (Dave Schnable), the hard-working, handsome cowhand, was determined to win the lovely Laurey (Donna Spencer).

John Lippard, as Jud Fry, a sour-tempered hired hand, complicated matters as he also strived to win Laurey.

The itinerant peddler, Ali Hakim, played by Greg Mikkelsen, courted Ado Annie, played by Ruth Muir.

Aunt Eller (Anne Kajola) frequently offered advice about love to her niece Laurey.

Mike Richwine, as Will Parker, expressed his amazement at the sights of Kansas City.

Graduation climaxed first year in new high school

The Valedictorian, Mary Lyn Miller, and Salutatorian, David Johnson, presented their speeches on Senior Day. They offered warning and encouragement to the students who would soon be facing adult responsibilities.

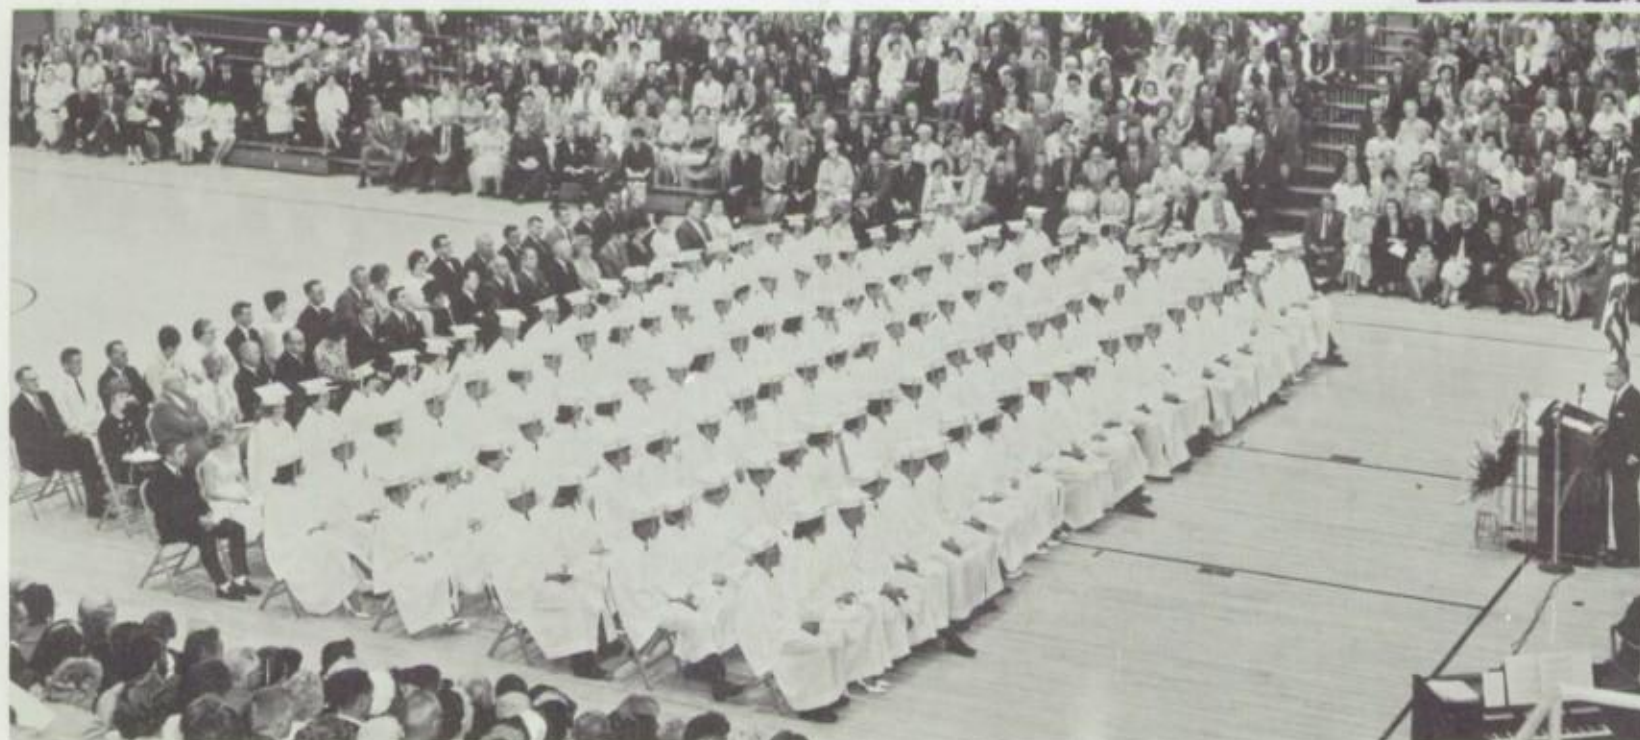

Mrs. Welborn, senior co-sponsor, presented Kitty Kirby and the other girl graduates with the class flower, a blue and white carnation.

Climaxing four years of hard work, Mary Ann Brown, one of the 132 graduating seniors, received her diploma from Dr. Griffith, secretary of the School Board.

Robert Kryter, former member of the Speedway School Board for many years, proudly delivered the commencement address to the

first graduating class of the Howard J. Lacy II Speedway High School.

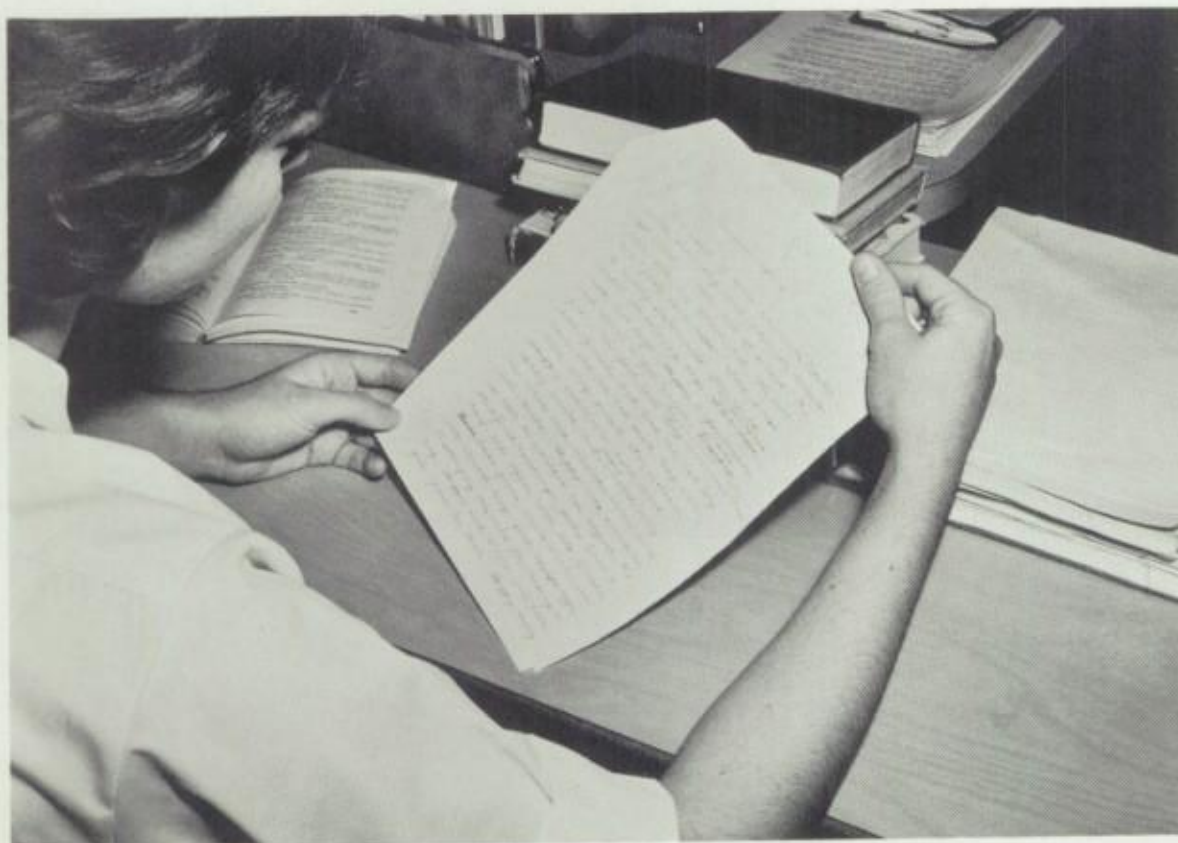

To the students it is opportunity;

it is hard work;

it is adventure.

It is satisfaction at having done the best possible. . .

and disappointment at
having not quite made it.

It is a demanding schedule,

and it is fun and relaxation.

It is friendship;

it is working together;

and above all it is a spirit
that can be seen,

heard,

and felt.

English is the lifeblood of an education

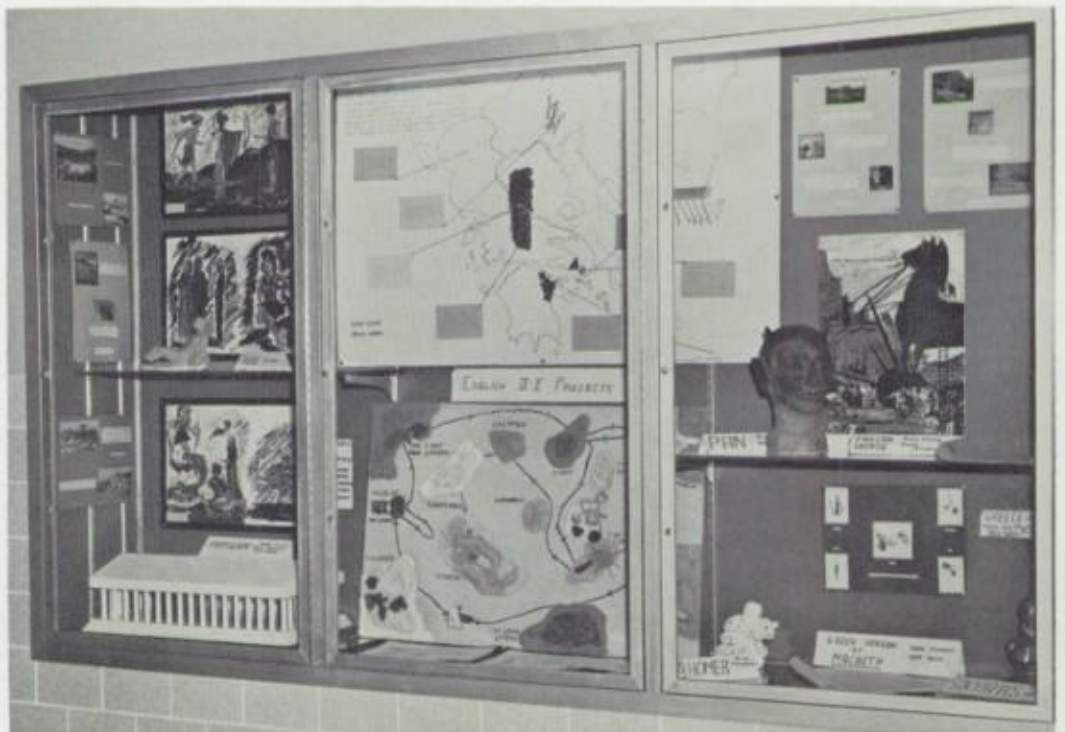

After three weeks' use of the shadowscope in the developmental reading lab, Chuck Guire, as many students, found his speed and comprehension greatly improved.

Developmental reading, a course which helps students increase their reading speed and comprehension, broadened the curriculum of the English department. Along with this new program, classes of regular English, honor English, world literature, business English, speech, and theatre arts are available to students. Because a good English background is an essential factor in achieving success in any future endeavor, every student in S.H.S. is required to take it for four years.

Mrs. Hine finds that the new departmental centers provide facilities which make the work of the teachers much easier.

Getting in the Greek mood, the fifth-year English class prepared special projects for a display.

Language study teaches students respect for foreign peoples

Languages came alive for many students through the use of the tape-recording equipment in the new language laboratory.

German and Spanish students have the opportunity of working in a new, fully-equipped language laboratory. Modern foreign languages are becoming more important as world travel and communications increase. The knowledge of a country's language helps in understanding its people and their beliefs.

One of the classics, Latin, is also offered at Speedway. Besides studying ancient Greek legends and the history of the Romans, students find Latin an immense help in understanding English.

Aspiring Spanish students dream of travel as Claudia Cox and Bob Kasnak put up colorful posters of Spain and Chile.

Reminiscing about their summer in Germany sponsored by the Indiana University Language Exchange, Jim Perin, Betsy Najar, Karen Douglas, Sue Johnson, Nick Green, and Martha Campbell recall their experiences of living with foreign families and attending a foreign school.

Mathematics instills power of thought

Even though calculus problems may resemble algebra, Keith Pieper illustrated to the class that they involve much more than just letters and numbers.

With his familiar symbol of authority, Mr. Nay instructed his students in the use of x's and y's.

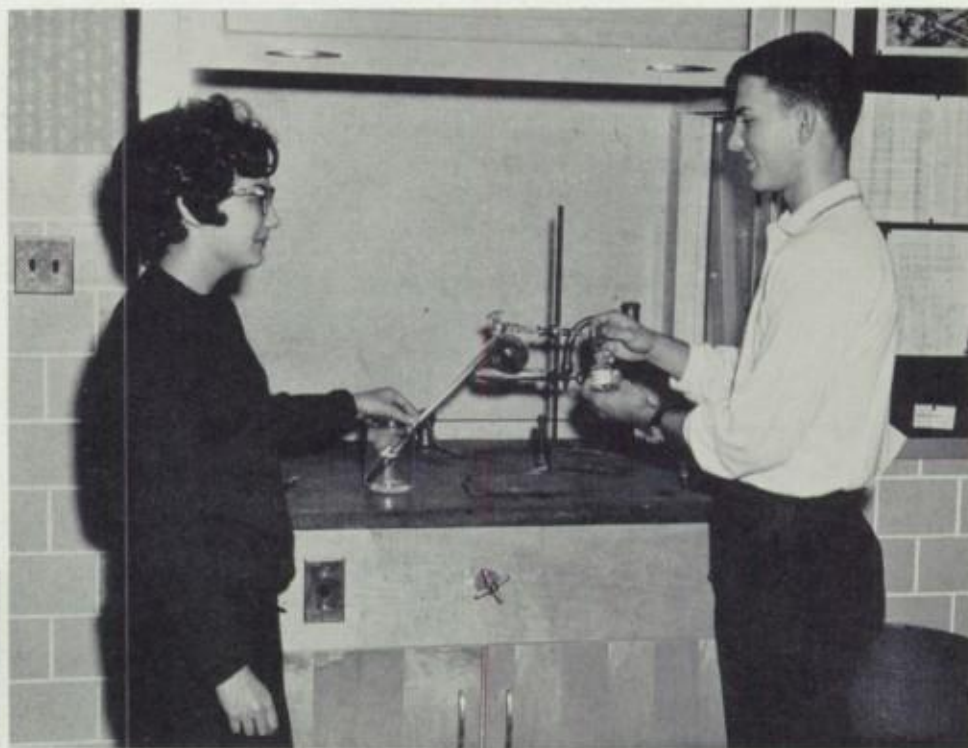

The mathematics department offers a selection of courses to help students develop a keen sense of logic as well as a strong background in quantitative thinking. General mathematics, first-year algebra, and plane geometry are basic courses offered to underclassmen. Trigonometry and calculus are two examples of the advanced courses taken by college-bound students.

Through Joel Richardson's illustrations, the angles and lines seemed to make sense to Julie Noble, Annette Crawford, and Jim Reid.

Science students keep apace of space age

Gary Laughlin came to the rescue of Donna Cahen as she performed a bromine experiment.

As he prepared to leave for the day, Mr. Adams made use of the ample space in the storage room.

Thrown into the turmoil of the Space Age, the current generation of students realizes that scientific knowledge means survival and success. Speedway students can develop a good background for this knowledge through one or more of the five courses offered here. Biology and zoology are basic subjects which prepare one for the more advanced physics, chemistry, and electronics.

Getting a late start on their insect collections, Leslie Akers and Kenny Jay look through the snow, hoping to find some new winter species of insect.

Lessons from the past give insight into the future

Governmental philosophy, the Marshall Plan, "yellow dog" contracts, and the reign of Charlemagne are among the diversified subjects included in the classification of social studies. Since United States history and government are required to graduate from Speedway High School, each student has a minor in social studies. Elective courses include sociology, consumer education, world history, and governments of the world. A strong background in social studies is intrinsic in order to be able to use the past as a guide to the present and the future.

Through his vivid and engrossing classes and his enthusiasm in government affairs, Mr. Weller inspired his students to take an active interest in their government.

Mr. Pollard kept the U.S. History class up to date on political issues and current events with the familiar OUR TIMES.

Jim Boswell didn't seem the least bit concerned about his grade on Mr. Burkhardt's multiple-GUESS sociology test.

Tomorrow's business tycoons prepare today

"Where did that measly three cents go?" bemoans a puzzled Gwen Goff as she works on her first-semester bookkeeping set.

Mr. Foland, with his advanced typing and office practice classes, prepared many programs for school plays, operettas, and dances.

Many girls who plan business careers and boys who will be among the future business "tycoons" have an opportunity to prepare for their vocations in Speedway's business department. Among the courses offered are business math, business English, bookkeeping, first and second year typing, and shorthand. Replicas of actual offices are planned for the more advanced business students in office practice.

To first-year typing students, concentration is an important factor in attaining speed and accuracy.

Home economics proves it is truly a "woman's world"

Routine tasks of sewing and pressing became more enjoyable to Nancy Tapscott and Marcia Havlin in the modern surroundings of the new homemaking department.

In completing a homemaking project, Lynn Parks called for assistance from Pat Singrey.

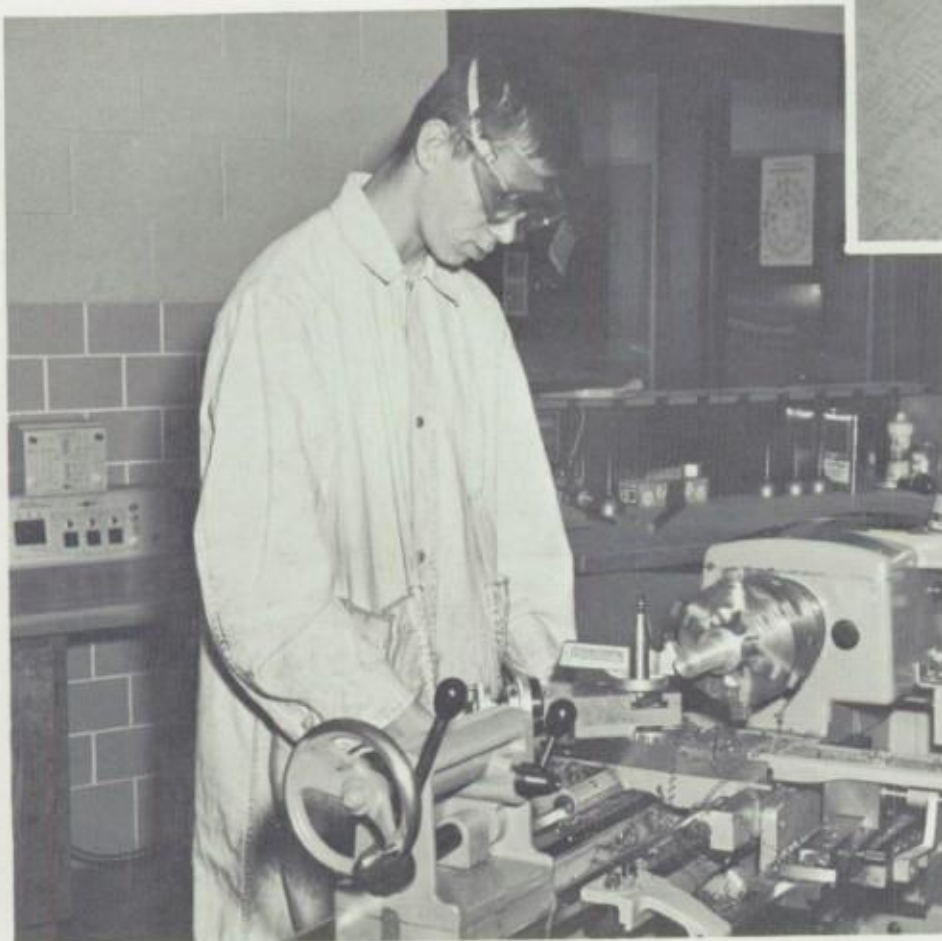

"Who needs a recipe!" boasted Carole Smith, Janice Atkinson, and Connie Faulk as they added a pinch of this and a dash of that.

That delightful aroma that sometimes seeps through the halls of S.H.S. is usually the work of a homemaking class. When not cooking, the girls learn to make beautiful and economic additions to their wardrobes. Training in home nursing, child care, and interior decoration prepare future wives for the art of efficient homemaking.

Industrial arts creates informed minds as well as skilled hands

Beginning problems acquainted Dick Griffith and other students with the use of various drawing instruments.

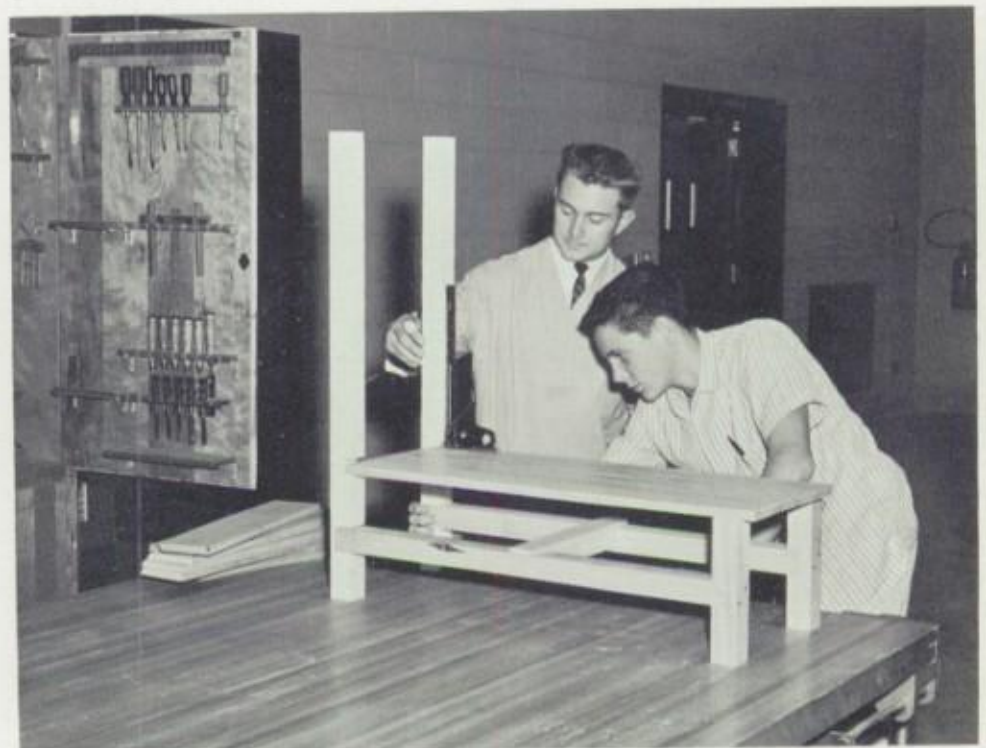

Working on the lathe, Mark Leonard strived to perfect his skills on a metal project in industrial arts class.

With the aid of proper tools, Mr. Crafton helped Chuck Bisson adjust his project.

Industrial arts provides boys with a chance to use their hands as well as their brains. Wood, metal, and plastic working, mechanical and machine drawing, and architectural drafting take both manual and mental dexterity.

Like many other departments, this division has also gained much new equipment in the transition from the old building to the new.

Constant study and vigorous activity constitute a strong body

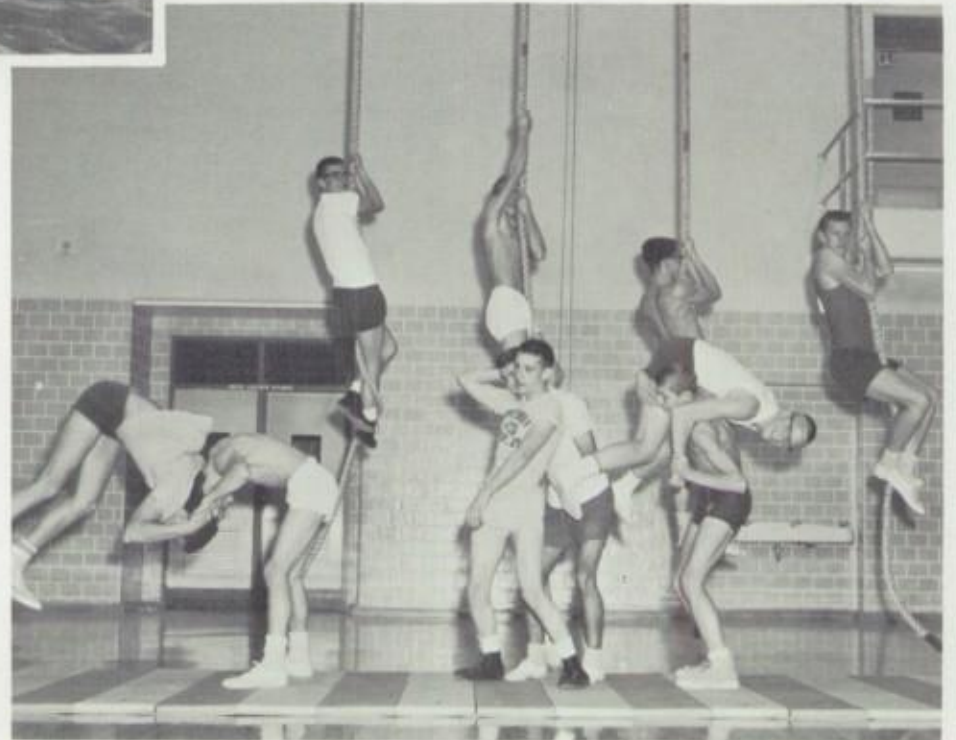

Having found the form of their strokes improved by Miss Euler's swimming demonstrations, Gretchen Hamilton, Rita Veal, Barbara Power, and Kathy Koehl listened to the new instructor's latest advice.

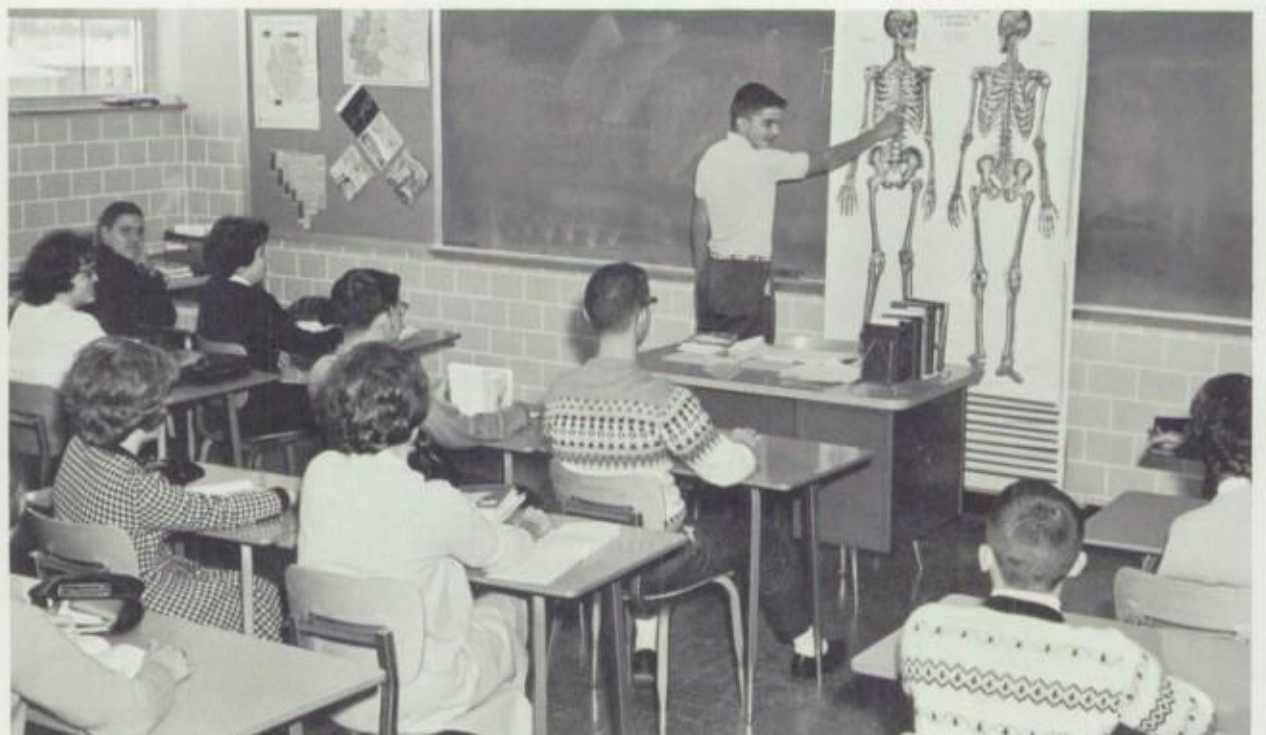

No, this isn't Speedway's answer to the Indianapolis zoo. It's really the eighth period gym class under the direction of Mr. Zimmerman.

One of the most enjoyable additions to the new school is the swimming pool. Much olympic-type gym equipment is also available to the physical education department. Speedway students are continuing to strive for one of the goals of the late President Kennedy—that of a physically-fit America.

Keeping fit is not enough though. Students must understand WHY they should keep fit. Health classes study the body and its functions and explain why it is important to keep it healthy.

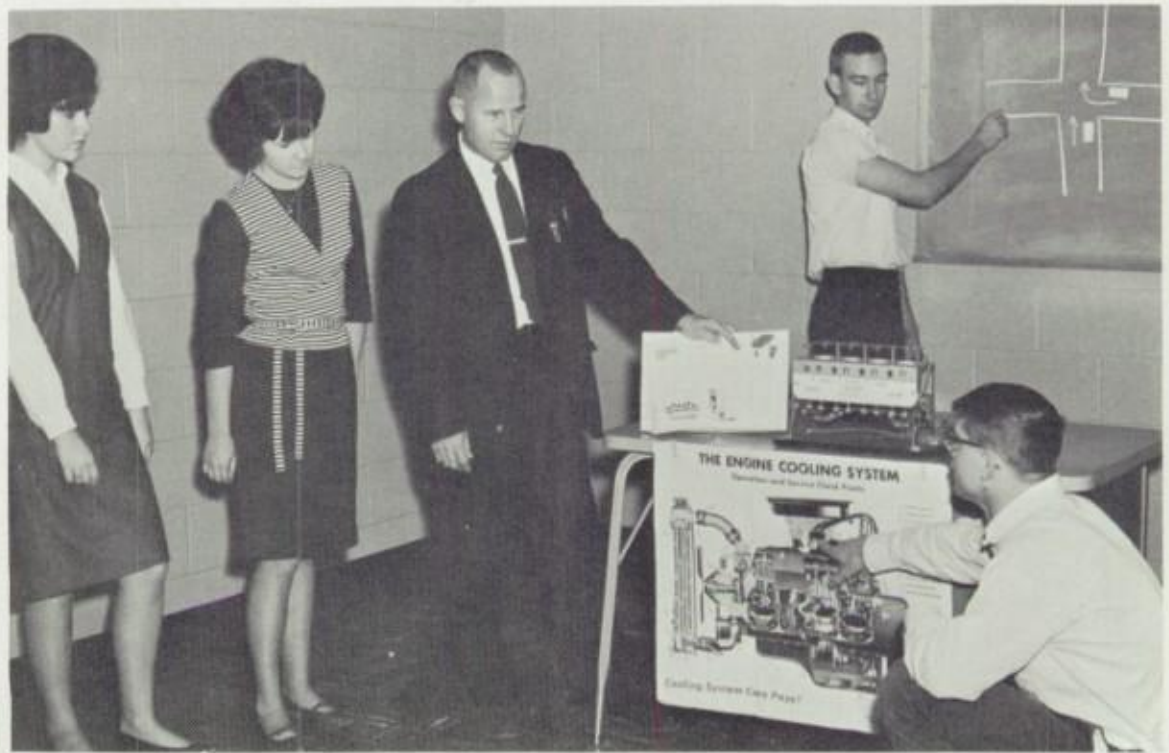

"Do you suppose he could be ticklish?" Joe Parker asked the rest of the health and safety class as he quizzed them over the different bones of the body.

Driver's training and orientation prepare youth for their adult lives

"It's really not as complicated as it looks," points out Joe Geiman as he explains the mechanism of the motor to Jan Ferguson, Donna Fivecoat, Mr. Hamilton, and Bill Hiteshew.

"The road went that way!" shouted Mr. Hamilton as Marcia Miller practiced her driving.

With the highway death toll constantly rising, proper instruction in the operation of a motor vehicle becomes very important; consequently, all Speedway students are required to take driver's training if possible. This important class has been beneficial in improving the driving records of students.

Aren't freshmen confused enough without having to choose what they want to do as their vocation after graduation? Thanks to orientation classes, these students have the proper guidance in making this important decision.

Career planning, a big job for the freshman orientation class, was carefully guided by Mr. Wicker.

Marching and concerts

Beginning two weeks before school started in September, the band worked diligently until their last performance at the Memorial Day Parade of bands before the "500" race. With sparkling half-time shows, the band highlighted football games. After marching in the Veteran's Day parade, they settled down to work hard for the annual school convo, county band festival, and state band contest. Members were honored at the annual banquet in April. In the last event before the race, they appeared as one of the select 33 bands in the "500" Festival Parade.

Choruses raised their voices in

The music department boasts three choirs this year as usual. Sparkle-aires, the varsity choir, keeps very busy appearing on television, participating in the county

choral festival held here this year, and presenting the annual spring musical comedy.

New red and white robes were sported this year by the Modern-aires, the girls' glee club. The third choir,

Choral-aires, is very important because it trains the future varsity singers.

Expression in paint spurred creativity

Jaci Tomulonis displays the work of an advanced art class.

Besides learning how to draw, sketch, and paint, art students learn to appreciate fine qualities in famous paintings from Raphael to the new modernistic designs. They also experiment in fashioning clay objects and in making wire-design pictures. In the spring and fall, industrious art classes can be found leisurely enjoying scenery around the school and attempting to put it on paper.

Mr. Stevens offered suggestions to pottery makers Larry Lindsey, Bill Strouse, Herb Crawford, Joe Bula, and Steve Washburn.

Eddie Robards and Linda Patrick experiment with water colors in their sixth period art class.

Orators and dramatists won array of honors

Showing that he really has a flair for the dramatic, Don Johnson has his own director's chair.

The bulletin board in the speech room was proof of the excellence of the competitive speech program this year.

Vicki Wagner, Nancy Kern, Russ Sinks, and Mike Harcourt display facial expressions of human emotions ranging from hilarity to fear.

Bertram Cates, played by Chuck Wells, pleaded with his girl friend, played by Linda Hildenbrand, to understand his views on Darwin's theory of evolution.

"HE THAT TROUBLETH HIS OWN HOUSE SHALL INHERIT THE WIND; AND THE FOOL SHALL BE SERVANT TO THE WISE IN HEART."

Taken from the Book of Proverbs, this quotation was the basis of the senior class play, INHERIT THE WIND, the story of the famous Scopes trial. The cast of thirty-five was the first to try out the new auditorium with its huge stage, excellent lighting equipment, and elaborate dressing rooms. With practice beginning in September and continuing until the performance dates, November 8 and 9, all people involved were well prepared and thus gave two memorable performances.

Seniors produced a thought-provoking play

Mike Richwine, as Rev. Brown, led the villagers in a revival while Colonel Brady, played by Dave Johnson, looked on smugly.

Jim Hansen, portraying Henry Drummond, weighed the merits of the Bible and Darwin's ORIGIN OF SPECIES.

Dave Johnson in character as Matthew Harrison Brady cross-examined Craig Spence as Judge Timm Payne and Bailiff Curt Leonard looked on.

Presented at S.H.S. as a school convocation, GREEN PASTURES is a farce by Marc Connelly. The plot of the play concerns the Negro conception of Heaven, and all members of the large cast were effectively made up to represent the characters they were portraying.

Karl Wacker as Cain met Susie Young while wandering away from home after he had murdered Abel.

God, Jim Hansen, is shocked at the evil created by Cain's girl, Linda Sewell.

Fantasy presented as convo by Student Theatre

The curtain calls brought much applause for the cast of GREEN PASTURES.

The newspaper staff looked ahead to new horizons

Members of the newspaper staff working on writing, editing, and typing include Phil Hoose, Dan Benefiel, Jody Hanna (standing), Kitty Kirby, Jorja Shirley, Nancy Morris, and Herb Crawford, editor-in-chief.

Putting out the SPEEDWAY SPEEDETTE is a big job which was in the hands of thirty-two first-year journalism students this year. Writing, planning, typing, editing, stenciling, scoping, producing, gathering, stapling, and distributing are among the many steps in publishing the school paper. Each of the four sections—news, editorial, feature, sports—are planned by a page editor along with an editor-in-chief who is in charge. Besides the basics of journalism, students learn how to be accurate, painstaking, and discerning.

Rita Knight, Susan Palmer, Donna Cahen, and Kay Evans (not pictured) proofread yearbook copy they have typed.

The 1964 SPEEDETTE staff began with a new idea and followed the business and financial paths of previously published volumes to interpret the events of 1963-64 through copy and photographs. It took much physical endurance and enthusiasm to produce this larger and unique edition of the 1964 SPEEDETTE.

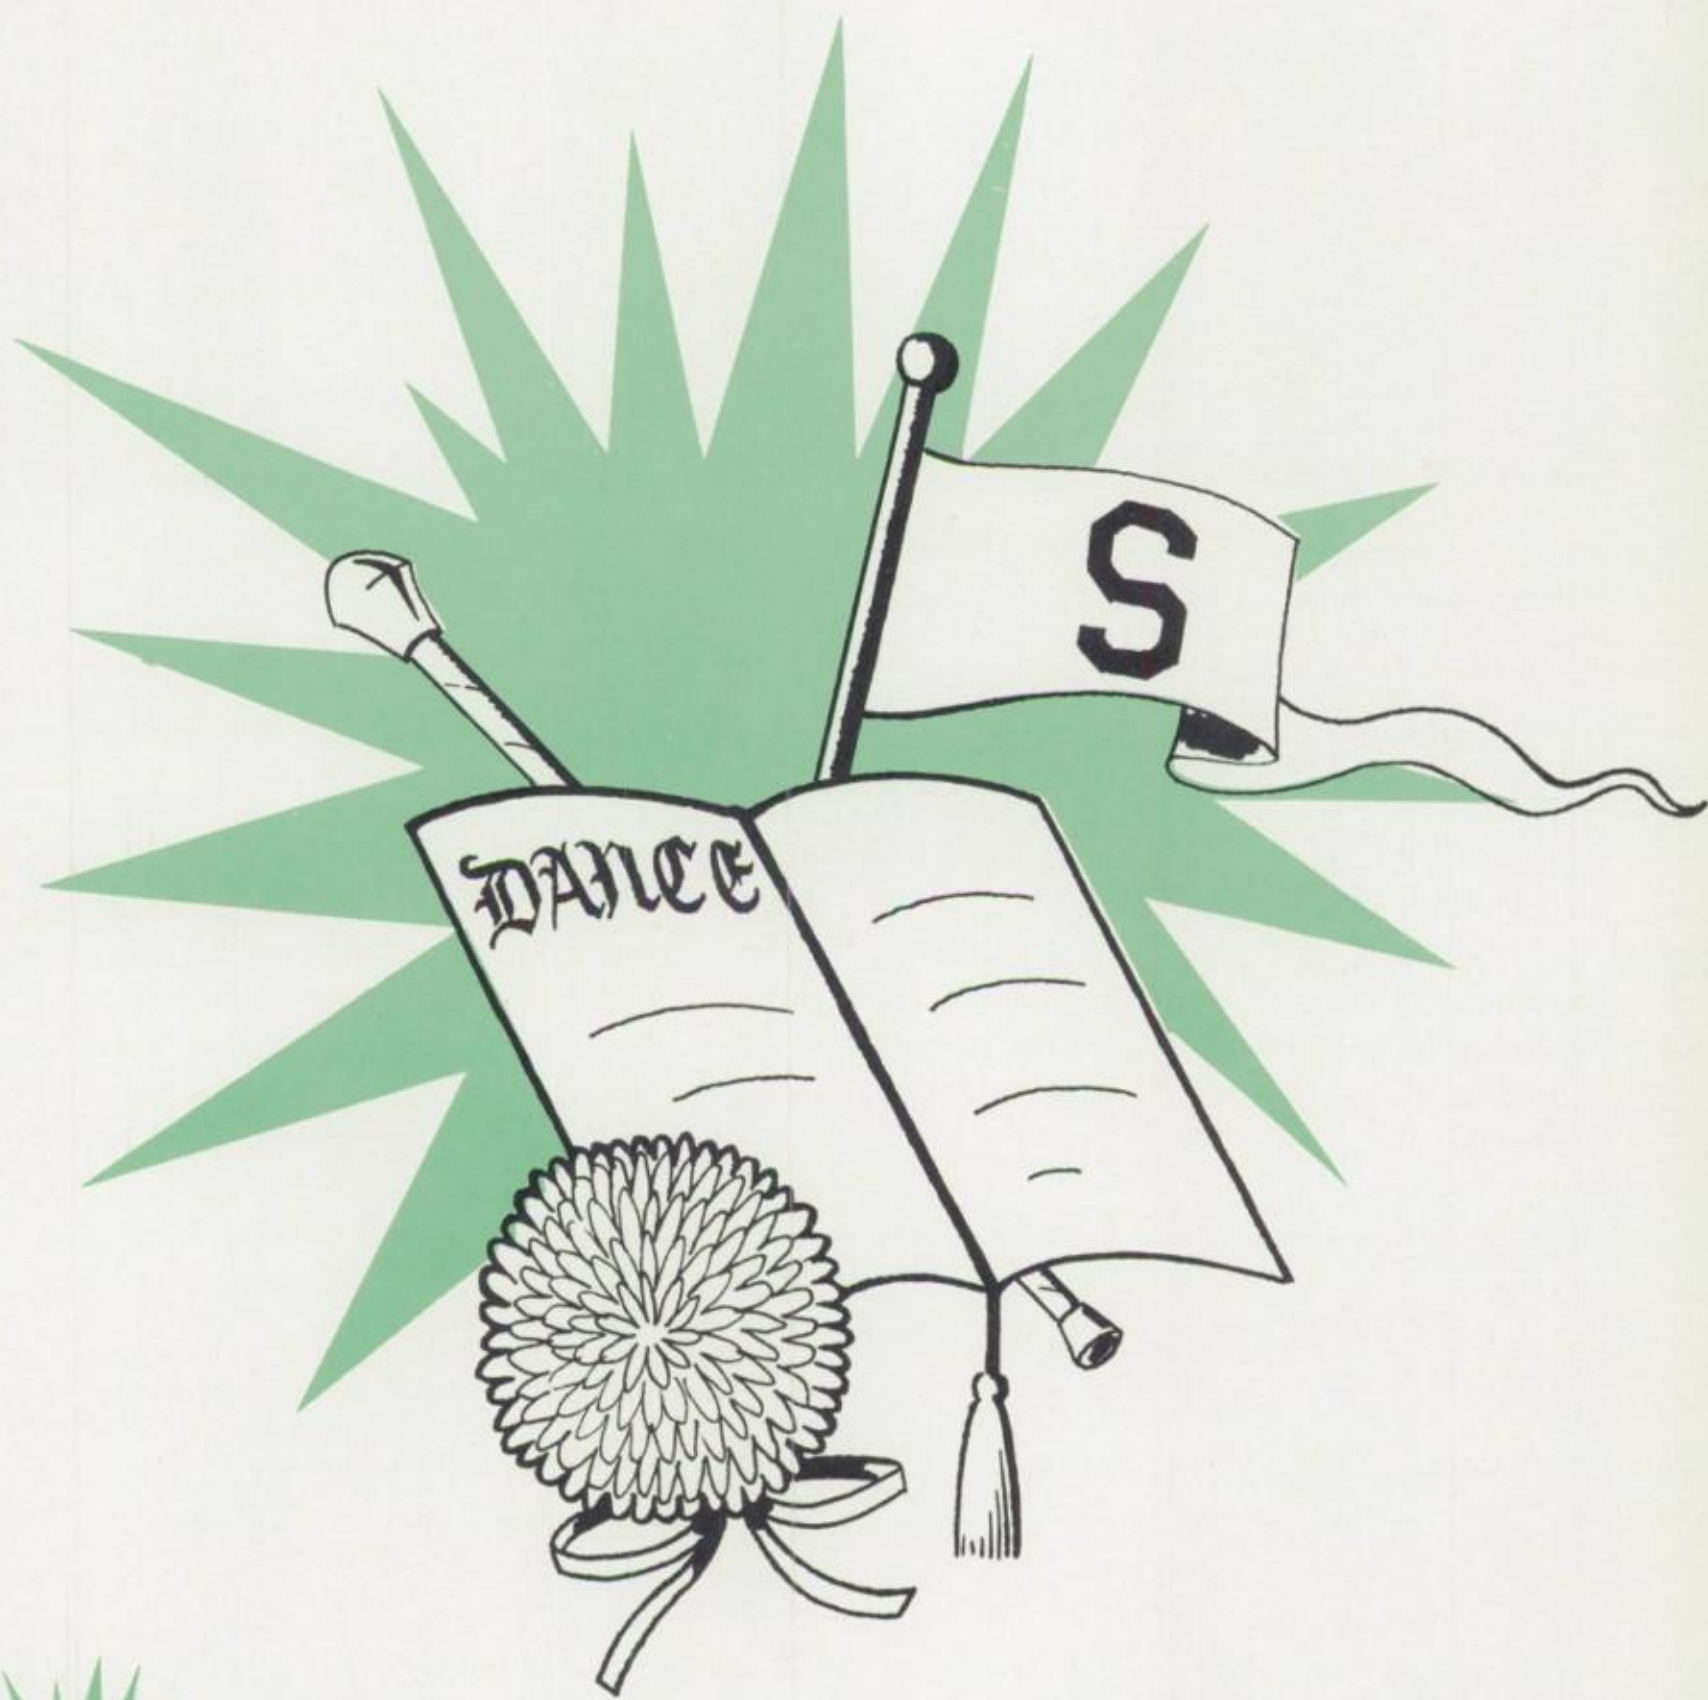

The staff would like to pay special recognition to Mr. Stevens for drawing the division pages and the cover design.

The boys of the 1964 SPEEDETTE staff, who worked on the sports section and identifications, include Greg Connell, Steve Bisson, Richard Adams, Bob Cantwell, and Edmund Irwin.

Newly organized speech clubs proved to be

Speedway High School's newest organization is the National Thespian Society, a dramatics fraternity. Fifteen seniors and one junior this year had the honor of being charter members of the Speedway chapter. The ten points required for membership were collected through participation in school dramatic productions. Initiations are held each six months for eligible students.

The newly reorganized Dramatics Club, now known as Student Theatre, is the largest club at Speedway High and one of the most active. Each member must work on at least one production during the year. *MACBETH* and *GREEN PASTURES* were sponsored by Student Theatre; the club also co-sponsored the junior and senior class plays, *THE IMAGINARY INVALID* and *INHERIT THE WIND*.

an enjoyable as well as a valuable experience

Throughout the year, members of Speedway's Speech Club attended numerous speech contests and participated in such areas of competition as extemporaneous speaking, debate, original oratory, dramatic and humorous interpretations, radio announcing, and poetry reading. The sponsoring of an after-game hop earned money for the rental of buses to take students to these meets.

Each time members enter a speech meet, they gain a certain number of points which go toward attaining membership in the National Forensic League, an honorary organization for speech students who have earned a total of twenty-five points in speech contests. All Speedway High School speech and dramatic organizations are under the direction of Don Johnson.

A new program instigated by the Future Teachers of America is that of cadet teaching. Each member who has certain qualifications has the chance to teach at Allison Elementary School or Speedway High School. At F.T.A. meetings, which are sponsored by Mr. Quisenberry, members learned about teachers' qualifications, salaries, requirements, and their "trials and tribulations."

The Girls' Athletic Association, a long-established organization at Speedway, was active again this year. Aside from the regular Thursday meetings, G.A.A. sponsored two major projects in the spring. The first was a basketball tourney between teams of girls from the four classes. Later in March they sponsored the annual Athletic Dance. Both events were very profitable.

Homemakers, scientists mapped future success

Twelve industrious science students composed the Science Club this year. Sponsored by Mr. Adams, they met bi-weekly. A few of the projects studied this year were atomic reactor simulators, polariscopes, and oscilloscope circuits.

Future Homemakers of America is a club for all girls who are interested in home economics. Twenty-six girls, under the direction of Miss Stolz, had home-made candy sales after school for students. Meetings sometimes were planned as special dinners or parties. This year the High School Red Cross was added as a division of the F.H.A. Two girls elected from the club represented Speedway at the local meeting downtown.

Sponsored by Mr. Roe, the German Club is a group of students dedicated to learning more about the country of Germany and its language. Members speak only German while participating in German games and singing German songs. Reports of actual experiences were given this year by the six students who spent ten weeks in Germany last summer.

This year, under the direction of Miss Moss, five members of the Latin Club also joined the Junior Classical League. Besides sending representatives to the state J.C.L. convention, the Latin Club sponsored a Roman banquet for its members in the spring. Speedway gridders tied

The entire Speedway student body and faculty saw a sparked-up varsity football team plough their way into a splendid season with a 7 win, 2 loss record. This record was stacked up due to the fine, fighting football players such as lineman Dave Huffman. Their determination and spirit, along with experienced coaching by Mr. Johnson and assistant coach, Mr. Clark, brought the honors of being the Mid-State conference champs and Marion County co-champs. This '63-'64 varsity football team leaves another winning mark in Speedway history.

In 1963-64, the Speedway varsity basketball team showed great improvement over last year's 4 win, 19 loss season. Showing balance and precision, the team shot their way to a winning season of 12 wins, 10 losses. The squad also hurdled over great obstacles to finish second to Warren Central in the 1964 County Tourney, losing by only one point. This was done by a fantastic .529 shooting percentage and great playing by Scott Neat and Jim Roach. This game was described as "one of the best ever seen" by newsmen and sports writers. With no squad loss due to graduation, Coach Pollard's able direction may bring Speedway the state finals in '65!

Speedway High entered their first year of varsity wrestling and compiled a respectable 5 win, 3 loss, 1 tie season. This is a very favorable record considering that this is only the second year in any wrestling competition. Inexperienced grapplers faced tough competition

In addition to the varsity squad, S.H.S. had a reserve and newly-organized freshman wrestling team. Coach Hamilton's reserve team had a fine season this year with a 5 win, 2 loss record. This is very commendable since some of the reserve grapplers had never been in

competition. The freshmen had an unproductive season, but their spirits were far from dampened. Under Coach Hamilton's instruction and with determination and willingness to learn, Speedway will have something to look forward to in wrestling.

Backed by the great coaching of Mr. Owensby, S.H.S. cross country teams made 1963-64 their first winning season. The varsity squad literally "ran" their way to a winning season by racking up a 6 win, 2 loss record. The reserves won all three of their meets and placed second in the Broad Ripple Invitational to give a fine showing. Running in only one meet, our freshman runners placed second out of nine schools to show real promise in future years. The cross country boys also placed first in the sectional and second in Mid-State competition.

Runners get in their practice on the permanent second deck of stands.

Herb Crawford, Phil Hoose, and Dick Parks get ready for a little pre-season track practice.

Speedway's first varsity swim team made an outstanding start in its first year of competition by splashing to a 9 win, 1 loss dual-meet record. Under the direction of the swimming coach, Mr. Zimmerman, the squad, made up mostly of underclassmen, also won the Muncie Burris Invitational and ranked fourth of 11 in the sectional. Of the S.H.S. participating tankmen, 7 of 9 qualified for the state finals in which they placed 13th. Speedway tankmen should have a good season in the coming year, losing only two seniors by graduation.

S.H.S. swimmers await the oncoming meet at pool-side.

Kenny King, between second and third markers, is in close contention in the Lawrence meet.

Chip Sunier makes the turn as he swims his butterfly stroke.

Trophies are proof of a good team's accomplishments. Our teams have accomplished much in our new school. We still hold on to many cherished traditions and trophies, but along with these we build new traditions and win new trophies. Expert athletic direction helps us to have a well-rounded sports curriculum and first-class competition. Our boys and coaches do their best to accomplish as much as they can. In all sports,

One of the big steps in nearly everyone's life is the transition from grade school to high school. Although not the only ones lost this year, the freshmen were still plenty confused trying to understand those X's in algebra, searching for insects in biology, and trying to decide future occupations with the help of orientation classes. Having the distinction of being the first class to complete all four years in the new S.H.S., the freshmen have a large responsibility of helping to shape future traditions.

No longer "green" but not yet upperclassmen either, the sophomores were caught in the in-between of high school society. They learned much about getting along in high school and no longer had an excuse for making mistakes as they did as freshmen. Traditionally part of being a sophomore is taking health and safety and ordering class rings in the spring. This year the sophomores were well represented in student activities, as they had several boys on the varsity basketball team and two varsity yell leaders. A great deal of work and a great deal of fun are perhaps the by-words for an oft-remembered year.

The first year in the new school was as special to the Class of 1965 as their sparkling new class rings. These under-upperclassmen found that although this was a fun-filled year, it also required much work. College-bound students took the National Merit Scholarship Test and Pre-SAT test. As the almost-all-junior basketball team thrilled many fans, other members of the class worked hard selling concessions to finance the Junior-Senior Prom. The year reached its climax when the class received the senior gavel and officially became seniors.

Seniors set pace as first graduating class

To every senior, graduation exercises marked an ending of one way of life in anticipation of another. Mixed emotions of sadness and happiness appeared on many faces as memories of the senior year were recalled. The thought of the colorful senior cords, the class play, the senior-sponsored dance, government quizzes, fifth-year English classes, the prom, senior pictures and many more events that were so much a part of the year brought smiles to many faces. Four years of study and hard work had come to an end but not without a great deal of fun as well.

... plenty, at Allison, the Energy Conversion Division of General Motors

■ While maintaining its leadership in the design, development and production of advanced type aircraft engines—such as the regenerative engine—Allison also is chalking up significant accomplishments in the fields of aerospace and nuclear energy conversion projects:

MINUTEMAN—the Air Force solid propellant ICBM—uses first and second stage rocket motor cases of titanium, and steel, developed and manufactured by Allison . . . and boasting a 100% reliability record;

APOLLO—the NASA manned spacecraft—will rely on Allison-built propellant components for course corrections enroute to the moon and during lunar rendezvous;

TITAN III—the giant Air Force launch vehicle to be used for putting multi-ton payloads into orbit—will utilize Allison-built pressure tanks in the thrust vectoring system;

MCR—the Military Compact Reactor, a highly-mobile, compact nuclear powerplant capable of generating 3000 kw of electricity—is currently being developed by Allison under contract to the Atomic Energy Commission;

ENERGY DEPOT—an Allison concept currently under development—could serve as the necessary power source for lunar colonization. The energy depot, too, would eliminate cumbersome petroleum

supply problems of mobile Army forces by manufacturing fuel "on-the-spot" through use of a portable nuclear reactor.

And, while pursuit continues on these, and other projects still in Research Laboratory, Allison heavy duty Powershift and fully automatic Transmissions, bearings and other products are setting new standards for reliability and performance.

Yes, new things are going on at Allison, leading the Hoosier state boldly into the exciting frontiers of the future.

VISIT THE POWERAMA—You are invited to visit the Allison Powerama—follow a rocket on its flight from earth, around the moon, and back to the earth; operate a real tank; observe a miniature turbo-prop in action, etc. The Powerama is a dramatic and educational display depicting Allison pioneering and progress in Energy Conversion. Located on West 10th Street, the Powerama is open to the public weekdays, 9 a.m. to 4 p.m., and 6 to 9 Thursday nights. Requests for group visits may be made in writing to Powerama, Allison Division, General Motors Corporation, Indianapolis 6, Indiana. Or, call CHapel 4-1511 and ask for extension 3307.

A most dangerous word

We feel students, too, should have a philosophy, whether written or unwritten. And above all they should avoid what we call "A Most Dangerous Word."

Thomas Henry Huxley had this "most dangerous word" in mind when he wrote:

"Perhaps the most valuable result of all education is the ability to make yourself do the thing you have to do, when it ought to be done, whether you like it or not."

He was striking out at people who consistently say, "I'll think about it tomorrow." That is the danger. That single word "tomorrow" can close the door on opportunities that are open to you in vast number . . . opportunities to excel in classroom work . . . opportunities to continue your education in institutions of

ESTERLINE ANGUS INSTRUMENT CO., INC. / 1202 Main Street • Speedway, Indiana

higher learning . . . opportunities to accept a responsible job following graduation.

Tomorrow may mean goodbye to opportunity. You can recall opportunities which were lost because you said tomorrow. Tomorrow came, but suddenly, it was yesterday.

As you approach your work in school or your life work following graduation, we sincerely feel you will be well advised to heed the advice of an unknown author:

He was going to be all that a mortal should be...Tomorrow. No one would be better than he...Tomorrow.

Each morning he stacked up the work he would do...Tomorrow. The greatest of workers this man would have been...Tomorrow. The world would have known him had he ever seen...Tomorrow. But the fact is he died and faded from view, and all that was left when living was through, was a mountain of things he intended to do . . . Tomorrow.

Your horizons are indeed unlimited if you will "make yourself do the thing you have to do, when it ought to be done, whether you like it or not."

Filling the instrumentation needs of industry, science and the military.

Best Wishes
